

Invitation to the IBC2018 Exhibition

We are looking forward to welcoming you at our booth 8.A69, hall 8.

14-18 SEPTEMBER
2018
RAI Amsterdam, Netherlands

IP is no longer a „future“ - it's here and now. Meinberg equipment plays a vital role in the transition from legacy SDI systems to a virtualized, IP-based environment.

Since 1967, the International Broadcasting Convention (IBC) has grown to become the most influential annual event for professionals engaged in the creation, management and delivery of electronic media, worldwide. As an AIMS member Meinberg will participate in the IBC IP Interoperability Showcase. Meinberg devices will also be used in interop demos on other vendor stands. Additionally there will be several product demonstrations at the Meinberg booth 8.A69, Hall 8. Meinberg cordially invites you to take a detailed look at its latest solutions and discuss your needs and ideas with the synchronization experts. If you are interested in a meeting, please send us an email to events@meinberg.de.

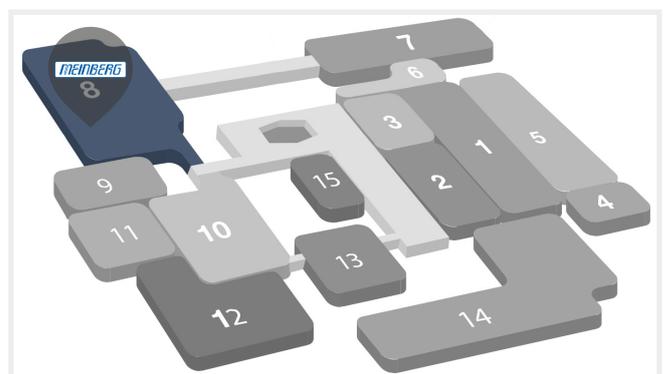

Our presentation at IBC2018 will include:

- Synchronization for SMPTE ST 2110 All-IP infrastructures which use the PTP profile SMPTE ST 2059-2
- Interoperability demonstrations with AJA, Artel, ARISTA, Oregano and Ward-Beck Systems
- Product demonstrations of the LANTIME M1000 and LANTIME M4000 which can easily be integrated in hybrid SDI/IP environments, as well as in All-IP scenarios
- Hands-on and demonstration of the microSync, our new powerful PTP time server
- A PTP demo will show and explain the functionality and the performance of PTP to the visitors

To register for a visit to the exhibition go to:

8.A69 | Hall 8
RAI Amsterdam
Europaplein 24, 1078 GZ Amsterdam, Netherlands

IBC is the world's most influential media, entertainment & technology show. Bringing together over 57,000 professionals from over 170 countries spanning the creation, management and delivery of electronic media and entertainment. It also showcases some of the world's latest innovations in media technology. IBC enables visitors to not only see the latest media technology, but also to touch, test, compare and place orders. It's where business is done. It attracts over 1,700 exhibitors from all around the world and more than 1,000 of the world's top media technology journalists. The flagship IBC Conference features a curated programme including over 400 of the world's leading industry influencers and experts providing an authoritative and independent view and helping to shape the future of the industry. IBC is hosted in the heart of Europe's startup technology scene in Amsterdam from 14 – 18 September.
